

NBRC Foundation Day

Foundation Day, celebrated on 16th of December marks the anniversary of the dedication of NBRC to our nation by the then President of India, His Excellency, Dr. A. P. J. Abdul Kalam. Students from different schools in Haryana are invited to tour the laboratories and are told about various research projects related to the functioning of the brain in health and disease. Posters made by NBRC students are displayed to explain the ongoing research activities at the centre and encourage school students to think of neuroscience research as a future career option. This is followed by a quiz competition and awards are given to the winning teams and all the participants. If you would like your school to participate, please email academics@nbrc.ac.in

An eminent neuroscientist is usually invited to deliver a lecture in the evening. Some of the lectures delivered so far are listed below:

Auditory Cognition of Speech and Music

2020

Prof Josef P. Rauschecker

Professor, Department of Neuroscience

DGeorgetown University, Washington DC, USA

Prof. Nicola S Clayton, FRS, Rambert's Scientist in Residence and Professor of Comparative Cognition, Department of Psychology, University of Cambridge, UK

and

Prof. Clive Wilkins, MMC, Member of the Magician Circle and Artist in Residence in the Department of Psychology, University of Cambridge, UK

The Neurobiology of Beauty

Professor Semir Zeki, Laboratory of Neurobiology Division of Cell and Developmental Biology, University College London

2018

Foundation Day 2018 celebration

Lab Visit

Lecture in Auditorium

Poster Presentation

Quiz Competition

Prize Distribution

Public Lecture

I think therefore I am

Prof. Karl J Friston, Wellcome Principal Fellow, Scientific Director: Wellcome Trust Centre for Neuroimaging,
Institute of Neurology, London, UK

2017

Foundation Day 2017 celebration

Lab Visit

Lecture in Auditorium

Poster Presentation

Quiz Competition

Prize Distribution

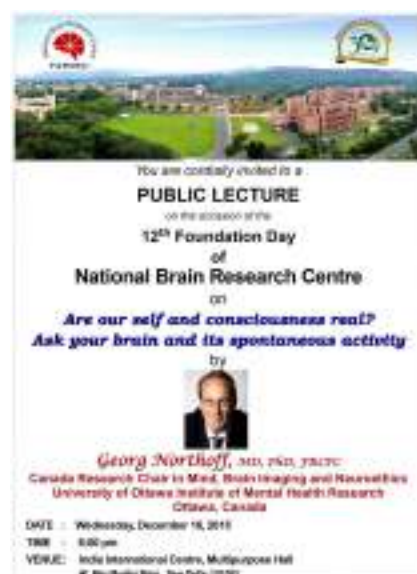

Public Lecture

Prof. Vikram Patel, Co-Founder and former Director, Professor of International Mental Health and Wellcome Trust Principal Research Fellow, Centre for Global Mental Health, London School of Hygiene and Tropical Medicine, London, UK

Prof. Georg Northoff, Canada Research Chair in Mind, Brain Imaging and Neuroethics University of Ottawa Institute of Mental Health Research Ottawa, Canada

National Science Day

Every year NBRC celebrates National Science Day on the 28th of February in the honour of Indian physicist and Nobel laureate Chandrasekhara Venkata Raman for his discovery of Raman effect. Students from NBRC visit different schools in Gurgaon and Delhi to introduce students to ongoing brain research at NBRC. The sessions are interactive and students are encouraged to ask questions and participate in the discussions.

If you wish to participate in these activities, please contact academics@nbrc.ac.in

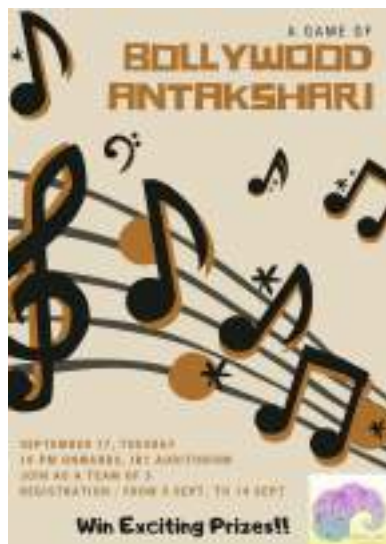

Tantrika

Tantrika is a flagship annual extravaganza of the National Brain Research Centre. Spanning two weeks, this student-organised annual fiesta includes a wide range of events and performances including arts, dramatics, song, dance and literature, along with a number of workshops on different themes. It is traditionally hosted by the second year PhD students as a token of welcome for the first year batch. The fest offers an unparalleled platform to stage talent, creativity and sportsmanship. Tantrika also hosts academic events, with plenary sessions as well as an annual keynote address from amongst prominent scientists. It aims at fostering camaraderie and friendship amongst the newcomers and reinvigorating the minds of the NBRC community from the mundaneness of everyday life.

Tantrika is everything a fest ought to be, and more. It is a tradition. It is a celebration. It is an experience. One you do not want to miss out on!

Events

Tantrika 2017: Just like action potentials.... all or none

Tantrika 2017 brought a new amalgam of scientific and cultural extravaganza. It began on a grand note by catering to taste buds of NBRCians with a fun filled food fest along with games for children. With eminent scientists like Dr Gagandeep Kang(keynote speaker), Dr Alok Bhattacharya, Dr Sushil Jha and Dr Soumen Basak giving the academic talks for two days, the Academic day also had poster presentation from various labs of NBRC.To keep up with the rich tradition of sporting events at NBRC, we had badminton, table tennis, short cricket, volleyball, football and kho-kho tournaments. We also had a live band performance by Sufi-cum-Light music band Dosh. Other events included antakshari, a general quiz, treasure hunt and poster making ending on a high note with a grand cultural night. The magic of Tantrika in NBRC was recreated this year too with much grandeur and enthusiasm. Let the spirit of celebration continue to welcome another batch next year with another Tantrika.
